- Freight and sales tax

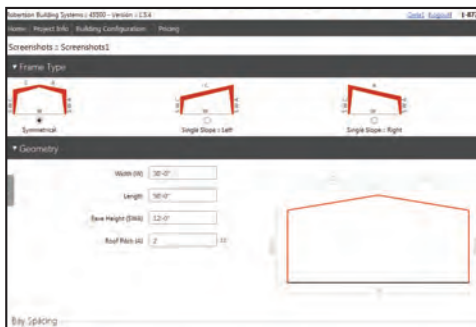

If you need construction services, call **1-800-387-5335** to find a

Fastest Route To A Metal Building

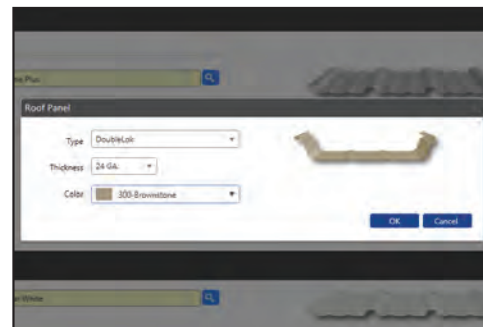

Order your Robertson **ExpressPlus**TM building in 6 simple steps!

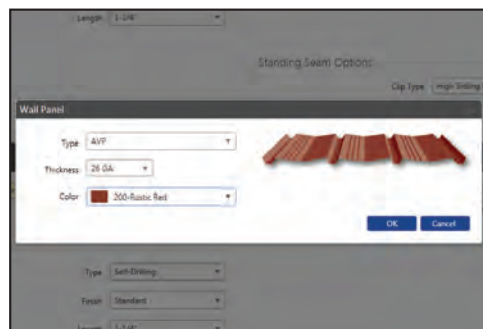

1 Choose your exact location with Google Maps to generate the building codes and loads for your area.

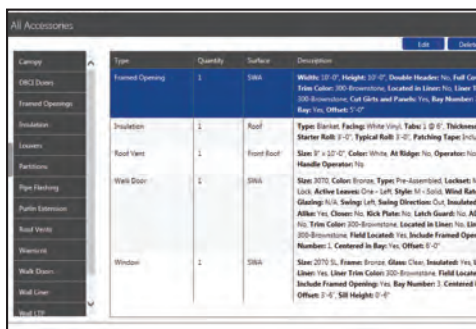

2 You are guided through choices for frame type, building dimensions, roof pitch and bay spacing.

3 Choose a roof panel, trim and colors from a variety of options.

4 Select wall panels, trims and colors.

5 Customize your building with accessories including windows, doors, roof vents, canopies and insulation.

6 Order and your building will be shipped in as soon as 3 weeks!

Advantages of a Steel Building

- ✓ **Steel is a Green Choice.** 100% recyclable. No steel or material waste occurs before or after manufacturing or during construction.
- ✓ Not treated with arsenic, acid or pesticides.
- ✓ Steel does not shrink, swell, split or warp and is non-combustible.
- ✓ Steel can span greater distances than wood to provide larger open spaces without intermediate columns.
- ✓ Virtually maintenance-free to help reduce operating costs. No painting; no rotting parts to replace.
- ✓ Dirt and pollutants wash off in the rain.
- ✓ Ventilation options help eliminate moisture and bacteria for fresh interiors.
- ✓ Light-transmitting panels reduce the need for artificial lighting to help decrease utility bills.
- ✓ Additions are easy.
- ✓ Steel buildings can be moved, disassembled or sold if no longer needed and a significant amount of initial investment may be recouped.

Authorized Robertson Builder - **your local construction expert.**
