

Agricultural *Facilities*

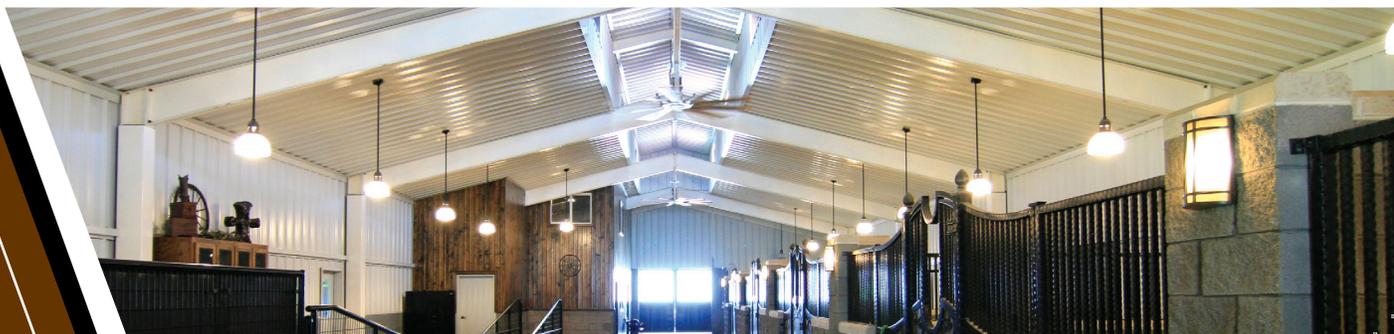

A working farm or ranch is a serious business and you need structures that can meet the challenge. That's why Robertson Building Systems, a leader in the custom metal buildings industry, provides quality metal buildings that are designed and built to handle all your agricultural needs.

Robertson buildings can be used for horse barns, stables, arenas, feedlots, dairy and calving barns, equipment and storage barns, hay barns, and the list goes on.

Count on Robertson's Experience with Agriculture Facilities:

- Capable of withstanding the extreme day-to-day and weather conditions of life on a farm
- Fire resistance and optimal efficiency
- Flexibility to expand and add on in an easy and attractive way
- Future maintenance and energy cost considerations are major concerns that receive major attention
- Performance-proven quality materials used in manufacturing ensure savings on future upkeep and maintenance

Each Robertson building is individually designed and engineered to meet your exact requirements as well as local building codes. Column-free interiors can provide uninterrupted floor space. High ceilings help promote proper ventilation. Cupolas and dormers open the facility up to more natural light and create a stylish design. Lofts can be added for additional storage space.

A Robertson building system is compatible with any conventional exterior that provides energy efficiency and lower maintenance costs.

Your Robertson building can be customized to fit your special needs. Floors can be dirt, gravel, asphalt, concrete, brick, rubber brick, or mats. Special drainage requirements can be met. Large, clear-span interiors provide floor space that can include cubicles or stalls with brisket board and neck rails. Recessed spaces in the aisles for water faucets, easy-to-clean wall finish, maximum roof lighting, and the inclusion of a high pressure wash down system are all features that a Robertson building can easily accommodate.

So, when it comes to designing and building your new agricultural or farm facilities, call Robertson Building Systems. Your local Robertson Builder can provide a single source of responsibility and consult with you about site selection, topographic conditions, and interior and exterior design to meet your long-term objectives.

With over **150 years of experience**, our reputation speaks for itself and it is your assurance that Robertson will bring your vision to life.
